

Mookie Wilson

Mookie Wilson will forever be remembered for the 1986 World Series at-bat which lasted ten pitches.

With the Red Sox one strike away from clinching the 1986 World Series in the bottom of the tenth inning of Game Six, Wilson fouled off pitch after pitch with last second swings. Mookie then hit a slow grounder to first baseman Bill Buckner, playing well behind the base. The speedy Wilson would have been safe anyway, but the ball eluded Buckner, allowing Knight to score the winning run. With drama quite different from a game-winning home run, the accumulated excitement of the slowly building rally capped by the tension of Wilson's at-bat made the game one of the most exciting in Series history.

For most of his career, Wilson was a hustling fan favorite whose at-bats were greeted at home with cries of Mooooooo-kie! He was a good base stealer, with highs of 58 in 1982 and 54 in 1983. He hit .276 three years in a row (1983-

85). After hitting .248 in his first call-up, he hit between .271 and .299 from 1981 through 1988.

Wilson's speed helped him outrun mistakes in the outfield as he led the NL outfielders with six double plays in 1984. Arm surgery in 1985 weakened his arm and reduced Mookie to a platoon player.

As the senior member of the team in the second half of the 1980's, Wilson was an important clubhouse influence. His hustle, even when the Mets had been notorious non-contenders, set an example for younger players. He was an unselfish team leader until he was traded to Toronto in the second half of 1989.

He sparked the Blue Jays to the 1989 Division Title and fittingly scored the run that clinched first place.

Mookie's faith is a core tenant of who he is. He is a strong Christian man who is ordained as a Baptist minister. Mookie accepted Christ as his Saviour as a young boy having been raised in the church and his faith continued to grow through his lifetime.
